RFB 5794 Authorization to Issue a Purchase Order to Spiideo AB for Live Stream Cameras

The Administration is requesting authorization to issue a purchase order to Spiideo AB for live stream cameras. MPS will receive live stream cameras that will be used to stream a vast majority of MPS athletics events to a remote audience.

The vendor was chosen pursuant to RFB 5794, which closed on April 28th, 2022.

The introduction of Live Stream Cameras for all MPS City Conference member school gymnasiums and turf football stadiums would put our athletic programs on par or in line to succeed those amenities offered to our suburban contemporaries. Presently, MPS athletic programs have not had the ability to offer this advanced technology viewer option to our parents, remote family/community members, nor fans. This option would allow us to expand our reach in the athletics space as well as decrease the effects of COVID-19 by providing our most vulnerable or those not able to attend events in person to enjoy a remote viewing option. Live streaming has proven to be a new way to experience sports that would otherwise have only been live and in-person. These fully automated and cloud-based live stream cameras are the future of sports broadcasting and the new standard in showcasing our MPS student-athletes as they pursue their athletic goals.

The total cost of the goods purchased will not exceed \$90,454.
