- F. A criminal information background check is required for all persons, including volunteers, providing services under this Agreement. The purpose of these background checks is to ensure there is nothing

that would render any person(s) unfit to perform services under this Agreement where there is contact and/or access to children. MPS will, in its sole discretion, determine whether there is anything in a background check that would render a person unfit to work with children. Provider has two options for completion of the criminal information background checks:

1. MPS will perform the necessary criminal information background checks. Should Provider choose this option, Provider must contact MPS's Department of Employment Relations at (414) 475-8280 to obtain the necessary forms.
 2. Provider may perform its own criminal information background checks through the Wisconsin Department of Justice Crime Information Bureau ("CIB"). If applicable, Provider must also perform a criminal information background check for any state where the individual in question has resided for at least six months in the last five years and was 18 years old or older at the time. - H. For purposes of this Agreement, a volunteer is any non-paid person who provides services on a regular and ongoing basis for more than five hours a week. Provider shall use good judgment in accepting the services of a volunteer, and shall be familiar with the volunteer before accepting services of that volunteer.
- I. In the event Provider hires, or accepts as a volunteer, any individual during the term of this Agreement to provide services under this Agreement, the requirements of Section VII.F. must be fulfilled before said individual is allowed to have contact with children participating in the 21st Century Community Learning Centers Program.
- J. Provider agrees to strive to implement the principles of equal employment opportunities through an effective Affirmative Action program. A copy of such program shall be produced by Provider upon request by MPS. The program shall set its objective to increase the utilization of women, minorities and handicapped persons, and other protected groups, at all levels of employment in all divisions of Provider's work force, where these groups may have been previously under-utilized and under-represented. Provider also agrees, in the event of any dispute as to compliance with the aforesaid requirements, it shall be Provider's burden to show it has met all such requirements.
- K. When a violation of the non-discrimination, equal opportunity and/or affirmative action provision of this Agreement has been determined by MPS, Provider shall immediately be informed of the violation and directed to take all action necessary to halt the violation, as well as such action as may be necessary to correct, if possible, any injustice to any person adversely affected by the violation, and immediately take steps to prevent further violations.
- L. If, after notice to Provider of a violation of the non-discrimination, equal opportunity and/or affirmative action provision of this Agreement, further violation of those provisions are committed during the term of the Agreement, MPS may terminate the Agreement without liability for any remaining funds which may be disbursed. MPS, at its sole discretion, may permit Provider to complete the Agreement. In the case of any violations of these provisions, Provider may be ineligible to participate in future contracts with MPS.

IX. INDEMNITY

Provider will be required to defend, indemnify and hold harmless MPS, its agents, board members, officers, and employees (collectively referred to in this section as the "Indemnitee"), from and against any and all actual or alleged claims, demands, actions, causes of action, damages and claims of any kind, including but not limited to bodily injuries, personal injuries, contingent liabilities or damages and reasonable attorneys' fees, arising out of or in any way related to or associated with or arising from the services rendered under this Agreement or the operation of Provider, that are or may be brought or maintained by any individual or

entity against the Indemnitee. This indemnification obligation will include any actual or alleged claims or causes of action of any kind against the Indemnitee due to the decision to enter into this Agreement with Provider. This indemnification obligation will not be reduced in any way by the existence or nonexistence, limitation, amount or type of damages, compensation or benefits payable under workers' compensation laws or other insurance provisions. Under no circumstances is the Indemnitee's recovery limited due to the fact that MPS is named as an additional insured under any of Provider's insurance policies. Provider agrees to accept tender of the defense of any claim or action against Indemnitee falling within the scope of this indemnity.

2015-16 MPS Community Learning Center Program Guidelines and Standards

The Milwaukee Public Schools requires each Community Learning Center (CLC) to create a CLC Program Plan that is closely aligned to and supports the School's Improvement Plan (SIP). CLC sites must provide academic enrichment activities designed to address identified achievement gaps and support student academic achievement in reading, math and other areas of need. In addition to an academic component, each CLC is also required to design and implement activities and programs for youth recreation and family enrichment that support student learning. The CLC Program Plan should describe in detail these activities and programs.

As partners, the School and the Lead Agency must work together to develop the CLC Program Plan. Each site's Program Plan will be reviewed and approved by the CLC Project Team. Evaluation of each site will be based on the CLC Program Standards. Please contact the CLC Office at (414) 475-8701 with any questions or for assistance in writing the CLC Program Plan.

WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION (DPI) CLC GRANT PROGRAM GUIDELINES

WHAT IS THE PURPOSE OF THE 21ST CENTURY CLCs?

The purpose of the program is to create community learning centers that provide students with academic enrichment opportunities as well as additional activities designed to complement their regular academic program. Community learning centers must also offer the families of these students, literacy and related educational development. CLCs, which can be located in elementary or secondary schools or other similarly accessible facilities, provide a range of high-quality services to support student/family learning and development, including tutoring and homework help, academic enrichment (such as hands-on science or technology programs), community service opportunities, as well as music, arts, sports, and cultural activities. At the same time, centers will help working parents by providing a safe environment for students when school is not in session.

Authorized under Title IV, Part B, of the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind Act of 2001, the law's specific purposes are to: (1) provide opportunities for academic enrichment, including providing tutorial services to help students, particularly those who attend low-performing schools, to meet state and local student performance standards in core academic subjects, such as reading and mathematics; (2) offer students a broad array of additional services, programs, and activities, such as youth development activities, drug and violence prevention programs, counseling programs, art, music, and recreation programs, technology education programs, and character education programs, that are designed to reinforce and complement the regular academic program of participating students; and (3) offer families of students served by community learning centers opportunities for literacy and related educational development.

What is a community learning center?

A community learning center offers academic, artistic, and cultural enrichment opportunities to students and their families when school is not in session. According to section 4201(b)(1) of the law, a community learning center assists students in meeting state and local academic achievement standards in core academic subjects, such as reading and mathematics, by providing the students with opportunities for academic enrichment. Centers also provide students with a broad array of other activities – such as drug and violence prevention programs- during periods when school is not in session (such as before and after school or during summer recess). Community learning centers must also serve the families of participating students, e.g., through family literacy programs.

For what activities may a grantee use CLC funds?

Each eligible organization that receives an award may use the funds to carry out a broad array of before- and after-school activities (including weekends and summer recess periods) that advance student achievement. Programs must provide remedial education activities and academic enrichment learning programs, including providing additional assistance to students to allow the students to improve their academic achievement. This must include a specific focus on mathematics and reading or English language arts, and may include a focus on other core academic subjects. In addition, programs should provide services in one or more of the following program areas.

- **Science education activities;**
- **Arts and music education activities;**

- Entrepreneurial education programs;
- Tutoring services (including those provided by senior citizen volunteers) and mentoring programs;
- Programs that provide after-school activities for limited English proficient students that emphasize language skills and academic achievement;
- Recreational activities including those involving physical activity;
- Telecommunications and technology education programs;
- Expanded library service hours;
- Programs that promote parental involvement and family literacy;
- Programs that provide assistance to students who have been truant, suspended, or expelled, to allow the students to improve their academic achievement; and
- Drug and violence prevention programs, counseling programs, and character education programs.

Community learning centers should propose an array of inclusive and supervised services that include expanded learning opportunities (such as enriched instruction, tutoring, or homework assistance) for children. Community learning centers may also include a variety of other activities for children and community members, such as recreation; musical and artistic activities; health and nutrition programs; parent education classes; GED preparation; adult literacy courses; and opportunities to use advanced technology, particularly for those who do not have access to computers or telecommunications at home.

Community learning centers are reminded of their obligation under section 504 of the Rehabilitation Act to ensure that their proposed community learning center program is accessible to persons with disabilities.

Community learning centers are strongly encouraged to link with other school and community-based programs to provide a range of quality services for students and their families. These activities should be available for a significant number of hours each week, during nonschool hours.

Can CLC program funds support services to adults?

Yes. 21st Century Community Learning Centers are required to provide educational services or activities for the families of participants. In particular, local programs may offer services to support parental involvement and family literacy. Services may be provided to families of students to advance the students' academic achievement. However, programs designed exclusively for adults who are not related to participating children are not permissible under the new statute.

MILWAUKEE PUBLIC SCHOOL'S CLC OBJECTIVES:

- Increase academic achievement of MPS students participating in CLC activities.
- Increase safety in and around the CLC.
- Provide programs that serve at-risk youth through a wide range of activities.
- Increase skill development and lifelong learning capacity of parents, and adults in the community.
- Implement a participatory management structure that includes both citywide and CLC stakeholders.

Selection, Recruitment, and Retention of CLC Participants

Selection of CLC Participants:

CLC Site Coordinator and CLC Academic Coordinator should work collaboratively with the principal and day school staff to identify students with the greatest academic need. When developing criteria for selecting students for your CLC program, here are some guiding questions to consider:

- Based on school data, who are the students with the greatest academic needs in my school?
- Based on school data, what are the academic needs of these targeted students?
- What successful strategies or programs from the day school can the CLC implement/extend to support student learning?

Examples of selection criteria:

- Students selected for CLC academic enrichment and recreation enrichment activities must meet the following criteria:
 - Students are performing below proficiency at the Minimal or Basic level (1 or 2) in reading and/or math and/or MAP assessments.
 - Students are referred for additional academic support by day school classroom teacher, day school administrator or parent based on classroom observations, grades, or other academic performance indicators.

Recruitment of CLC Participants:

- Some strategies and best practices for recruiting students in your CLC program may include, but are not limited to:
 - Call and/or send letters/invitations home to parents of identified students. Inform parents that the CLC is a valuable opportunity to help support their child's academic achievement and is open only to a limited number of students.
 - Organize an informational meeting for parents and students who have been invited to join the program. Provide an overview of the CLC program and explain expectations regarding student attendance, behavior, etc.

Retention of CLC Participants:

- Some strategies and best practices for retaining students in your CLC program may include, but are not limited to:
 - Weekly call and/or send progress reports to parents of participating CLC students. Provide an update on their child's progress in the CLC program.
 - Develop a system to reward or recognize students for reaching or exceeding standards in academic growth, attendance, behavior, or other criteria.

The principal and lead agency will work with the CLC and day school staff to facilitate professional development that is aligned with the goals and objectives of the School's Improvement Plan. The principal and lead agency representatives will conduct quarterly site visits of the CLC program to observe quality of program content and homework help assistance and submit Site Observation Form of site visits to MPS.

ACADEMIC ENRICHMENT PROGRAMS

Required Start Date: September 14, 2015

Schedule Requirement: Each participant must receive a minimum of 30 minutes of math or literacy focused academic enrichment per day for 4 days per week.

Program Requirements:

All math and literacy enrichment activities will be fully coordinated with content of the day school. Enrichment programming will be diversified, and activities will be structured to be sequential with a focus on providing hands-on activities and experiential learning opportunities. CLC staff must assure that the daily CLC schedule supports participation in academic enrichment by each youth.

Collaboration Requirements:

The CLC team (Lead Agency, Principal, Site Coordinator, Academic Coordinator and a core group of day school teachers) shall ensure CLC academic activities are closely aligned with the School's Improvement Plan and Common Core State Standards for Mathematics, Reading, and English Language Arts. CLC math and literacy based enrichment activities must align with day school instructional strategies and best practices and support the achievement of students with the greatest academic needs as identified by day school and CLC staff. CLC literacy and math enrichment may integrate other core academic content such as science, social studies, technology, and humanities. CLC enrichment programming must be diversified and encompass the following characteristics:

- Intentionally designed to meet the specific learning outcomes that are aligned with the schools' standards/goals
- Organized scope and sequence of learning activities
- Engaging activities involving active learning

High quality academic enrichment activities are:

- Intentionally designed to meet specific learning outcomes that are aligned with the current School Improvement Plan and the schools' standards/goals
- Driven by an organized scope and sequence of learning activities
- Differentiated; learners have multiple ways to engage in activities for active learning
- Interactive and hands-on to keep youth motivated and challenged, as through learning centers or learning stations
- Rich with opportunities for learners to practice critical thinking and problem-solving skills
- Developmental; units of instruction are connected; the instructor should understand and be able to explain how activities build upon each other
- Often project-based, experiential, or theme-based

High quality academic enrichment activities are NOT:

- silent reading programs
- worksheet-driven
- focused on seatwork that is not interactive
- too broadly focused (i.e., “open” computer lab)
- unvaried; same activities are offered each day with little variety

Examples of high quality academic enrichment activities include but are NOT LIMITED to the following:

- book or reading clubs
- math exploration
- chess
- Science exploration (i.e., robotics, engineering.)
- service-learning
- computer programming
- writing (i.e., newspaper, newsletter)
- technology (i.e., website design, video production)
- entrepreneurial programs

YOUTH RECREATION

Required Start Date: September 14, 2015

Schedule Requirement: Each participant must receive a minimum of 30 minutes of recreation enrichment per day for 4 days per week.

Program Requirements:

Each CLC is required to develop and operate youth recreation enrichment activities that expose participants to activities in the arts (dance, drama, pottery, music, etc.); sports and fitness (activities designed to get kids moving and physically active, as well as discussions on health and nutrition); cooperative learning games (non-competitive in nature); games that provide opportunities to practice basic academic skills such as chess, checkers, puzzles and word games; entrepreneurial programs; telecommunications and technology programs; and experiences that build on a wide diversity of cultural and ethnic groups.

In addition to listing the recreation enrichment activities you will be offering during your program cycle, please connect each recreation enrichment activity to one or more learning goals and youth development goals.

Learning goals represent benchmarks or outcomes based on what you expect the child to learn by the end of the activity or program. Learning goals focus primarily on developing cognitive skills. The child should be able to show that he or she clearly understands and has mastered the concept or skill taught throughout the activity.

Youth development goals represent benchmarks or outcomes based on what you expect the child to learn by the end of the activity or program. Youth development goals focus on building the social, moral, emotional, and physical skills of the child and his or her understanding of why these skills are important. Youth development goals often, directly and indirectly, support learning goals.

SPARK Afterschool Physical Activity Curriculum – Elementary and K-8 sites only

All elementary and K-8 sites must facilitate the SPARK curriculum as part of regular recreation programming for students ages 6-12. Each site must facilitate at least 45 minutes per week of SPARK for each individual age group within the 6-12 year age range. Each elementary and K-8 site must incorporate SPARK for each group into the site’s weekly program schedule. SPARK sessions for groups need not be scheduled for the same day; however each group must be scheduled at least once per week.

SPARK sessions must be offered weekly, beginning September 14, 2015, and ending no earlier than May 20, 2016. One staff member from each elementary and K-8 site must attend a SPARK training in Fall 2015 and requested follow-up trainings throughout the academic school year. Following the initial training sessions, trained site staff must facilitate an on-site training to additional staff that will also facilitate SPARK.

Attendance records must be documented in APlus for SPARK activities. Each individual SPARK activity must be named “SPARK” followed by the grade level. Attendance must be updated regularly, following standards specified in the contract. Evaluations provided through the curriculum must be completed and submitted as requested by Milwaukee Public Schools.

PARENT INVOLVEMENT/CONSULTATIONS

Parent Orientation

The CLC must complete at least one parent orientation event with at least one parent or guardian of each CLC participant on the purpose of the CLC program which must emphasize the academic focus, participant selection process and program commitment among other policies.

This may be completed through a mass gathering, individual parent meetings or a combination of the two. Participation/attendance at all mass gathering parent orientation events must be documented in APlus as a parent orientation activity. School-led open house events are not sufficient, unless an audience of CLC parents is separately addressed. All CLC families must receive written orientation materials by September 30, 2015.

The Parent Orientation may qualify as a Family Enrichment program if also accompanied by academic demonstrations for parents that are in support of student learning.

Family Enrichment Activities

Program Content:

- a. Activities: Family Enrichment activities are defined as high quality programs designed to engage family members in support of student learning.
- b. Examples of Family Enrichment Activities that would be appropriate for CLC:
 - *Family Literacy & Math Nights* – This ongoing series of hands-on, interactive literacy workshops (coordinated jointly by day school teachers, CLC Academic Coordinator, and CLC staff) will teach parents of CLC youth about the school’s reading and math curricula. Each month, parents will learn new strategies that they can do at home with their child to reinforce and support literacy and mathematics skills. Workshops will take place on the third Tuesday of each month. A light dinner will also be provided.
 - *Parenting with Love & Logic* – Series of monthly workshops for parents that focus on building positive discipline and effective parenting techniques. Dinner and childcare will be provided.
 - *Adult GED/ESL Classes* – Parents of CLC youth are offered the opportunity to improve overall literacy skills by completing adult basic education classes (GED) and/or improve English speaking, reading, and writing skills. Building literacy skills is essential to helping parents effectively support literacy skills at home with their child, improving communication with school and afterschool staff, and strengthening communication and opportunities in the community and workforce environments.
- c. Examples of Family Enrichment Activities that would NOT be appropriate for CLC:
 - *School/CLC Spaghetti Dinner* – CLC and school work collaboratively to plan this event. Parents and students are offered spaghetti dinner to build community and celebrate. (Why is this activity not appropriate? Although school and CLC worked together to plan this event and it may help to build a sense of community in the school/CLC, it is neither interactive nor does it include opportunities for parents to learn a skill or receive information that will help them reinforce student learning at home.)
 - *CLC Holiday Celebration* - Parents and students are invited to gather for a celebration of the holiday. Students perform songs, dance, and showcase projects that they’ve been working on in the CLC program. Parents are invited to participate in a sing-along. (Why is this activity not appropriate? Parents are simply watching students

perform. They are not learning a skill or receiving information that will help them reinforce student learning at home.)

- *Student sports game/play/recital – Students perform and parents are invited to attend game/performance and observe skills youth have developed. (Why is this activity not appropriate? It is not interactive. Parents are not learning a skill or receiving information that will help them reinforce student learning at home.)*

2015-16 CLC Professional Development Plan

Each CLC site is required to provide a minimum of 10 hours of on-site Professional Development (PD) for all CLC staff for the 2015-16 school year. Providers will work with the day school to coordinate mandatory PD for all staff, including those working with academic enrichment. The principal and lead agency will work with the CLC and day school staff to facilitate PD that is aligned with the goals and objectives of the School's Improvement Plan and the Community Learning Center. All PD will focus on program improvements to support student academic achievement.

At least five hours of on-site PD must take place in Cycle One and the remaining minimum of five hours must take place in Cycle Two. Site and Academic Coordinators will coordinate training sessions on a quarterly basis based on the following options.

PD Options for Frontline Staff

- **Design a PD session based on a Site Coordinator or Academic Coordinator Meeting Topics.**
 - This involves the development of a training session utilizing information, resources and training methods from topics covered in bi-monthly meetings.
 - Possible facilitation might include a presentation of information, small group discussion on making program improvements based on information, creating staff and program goals based on information, inclusion of an action plan, etc.
 - Suggested Structure: On-site presentation = 45 minute minimum; Group Discussion, Modeling or Practice = 30 minutes; Action/Program Improvement Plan = 30 minutes

- **Participation in Foundations, Inc. Webinar(s)**
 - Frontline staff may directly participate in webinar opportunities as established by the MPS CLC Project Team. A listing of the scheduled one-hour webinars will be made available to sites with topic and session information.
 - Webinar reinforcement may include additional group discussion around the webinar content, action steps to integrate information into programming, etc.
 - Suggested Structure: Webinar = 1 hour; Group Discussion, Modeling or Practice = 1 hr min.

- **Milwaukee Public Schools In-Person Trainings**
 - The MPS CLC Project Team will periodically offer in-person frontline staff trainings throughout the academic year. A listing of the scheduled trainings will be made available to sites with topic and session information.
 - Sites must send a minimum of 5 frontline staff to these trainings to qualify for the site's PD hourly requirement.
 - Follow-up discussions on-site may be facilitated to elaborate on the PD topics.
 - Suggested Structure: Training = 2 hrs; Group Discussion, Modeling or Practice = 1 hr min.

- **YoungStar and Registry Sanctioned Trainings**
 - Sites that conduct or participate in YoungStar qualifying training sessions may utilize the training to satisfy the PD requirement for those trainings hours if 5 or more site staff participate.
 - Documentation of completion must be copied and submitted to the MPS CLC Project Team as proof of participation.

- **On-Site Training Developed using MPS Provided Training Topics**
 - **Site Coordinators may develop training topics using the following resource to address site-specific needs to enhance programming:**
 - ✓ **You for Youth Website**
 - ✓ **Foundations Graffiti Wall**
 - ✓ **SEDL Toolkit (Online)**
 - ✓ **Afterschool Style in Practice: 25 Skill Building Meetings for Staff**
 - ✓ **Beyond the Bell Toolkit Staff Handbook**
 - ✓ **Academic Content: Afterschool Style**
 - **Suggested Structure: On-site presentation = 1 hour minimum; Group Discussion, Modeling or Practice = 30 minutes; Action/Program Improvement Plan = 30 minutes**

Required Documentation

APlus will be used to create site-based PD events and track staff participation. Site Coordinators will be responsible for creating PD events as directed by the MPS CLC Project Team. Following each training, the site will add the training event to each staff person's profile within APlus that attended the session.

Completed PD Materials

The Site Coordinator must submit the completed [PD Session Summary Report](#) and the agenda for the training on a quarterly basis. These items must be emailed to Lisa Mitchell. **Note:** Paper materials (fax or mailed) will not be accepted.

Quarterly Due Dates for PD Documentation:

- November 6, 2015
- January 15, 2016
- March 11, 2016
- May 13, 2016

CLC POLICY/PROCEDURES FOR ADDRESSING PROGRAM DISCREPANCIES

MPS CLC Corrective Action Plan (CAP) Policy & Procedure

Policy

All Community Learning Centers (CLC) and Lead Agency Partners must comply with the items set forth in the school year and summer CLC contracts between MPS and the Lead Agency. In situations in which a CLC site is consistently non-compliant in meeting one or multiple contract standards the creation and execution of a formal Corrective Action Plan (CAP) is required.

Purpose

In order to efficiently address CLC contract non-compliance, individuals within the MPS CLC Project Team will assess the consistency and root cause of the identified non-compliance issue in order to develop and execute a CAP that will prevent recurrence of the non-compliance.

Procedure

Individuals of the MPS CLC Project Team will monitor an array of CLC program operations including but not limited to: participant recruitment and retention, activity goals and implementation standards, data entry completion, alignment of programs with student academic needs, school and family collaboration, curricula implementation and other grant or contract specific requirements.

If a CLC Project Team member identifies consistent contract non-compliance that has not been resolved through informal coaching and support, the individual will communicate by email the need for a formal CAP. The following protocol should be followed in this situation:

- 1) Address an email to the CLC Site Coordinator, Academic Coordinator, Lead Agency, School Principal, and MPS Recreation Manager.
 - a. In a 4-5 sentence paragraph, outline the non-compliance issue at hand as well as the steps taken to attempt to resolve the issue prior to this point.
 - b. Explain the need for a CAP to abide by grant and contract standards for the betterment of the CLC student population.
 - c. Request a meeting time to develop the CAP with the involved parties. Mandatory attendees: CLC Project Team member, Site Coordinator and Lead Agency. Voluntary attendees: Principal, Academic Coordinator, other Lead Agency staff.
- 2) Begin assembly of the CAP in the provided template. Complete the initial portion of the template (first seven lines), while leaving the Action Items blank for determination at the upcoming CAP meeting.

- 3) Email this draft of the CAP to the individuals on the initial email communication a minimum of three (3) business days prior to the meeting date. Request all parties come to the meeting with their ideas for Action Items to resolve the non-compliance.
- 4) Hold the initial CAP meeting and draft the Action Items as a group. Within 2 business days, type and email the finalized CAP plan to all those on the initial email.
 - a. Modifications can be made to the CAP Template to accommodate additional Action Items or other notes. This can be done by selecting "Stop Protection" under the Restrict Editing function. You must lock the document again to make edits and additions to text.
- 5) Begin monitoring progress on the completion of action items according to the timeline set forth in the CAP. Ask that the Lead Agency Representative also check in frequently with the site to monitor completion of the Action Items.
- 6) Document ongoing CAP updates within the original document as Action Items are completed, additional items are created, or additional meetings are scheduled.
- 7) Lastly complete the CAP Closing Summary at the bottom of the document as the site has achieved full compliance or if the CAP has ended for another reason.
- 8) Send the final CAP document in an email to CLC Site Coordinator, Academic Coordinator, Lead Agency, School Principal, and MPS Recreation Manager. The Manager will then share the results with the Coordinator and Manager of Operations.

HUB AND STUDENT ENGAGEMENT INFORMATION AND FORMS

All the information you need related to Historically Underutilized Business (“HUB”) or Student Engagement Program, including all applicable forms, can be found in this document.

If HUB and Student Engagement Requirements are Zero

If the HUB and Student Engagement requirements are zero in the RFP you are responding to, the only form you must fill out is **Appendix B**, the Prime Vendor Information Sheet. This information will not be used in making the award and is kept solely for statistical reporting purposes to the Board of School Directors.

Historically Underutilized Business (“HUB”) Requirements

HUB firms are defined as for-profit businesses 51% or more owned, controlled, and managed by minority, women, disadvantaged, emerging, small or other MPS-targeted business owners who have been certified as such by an MPS-recognized agency. MPS has an annual HUB participation goal equal to 35% of all applicable purchases. Contact Contract Compliance Services (CCS) for other eligible considerations.

Appendix A must be completed only if a HUB requirement is assigned to this RFP.

ALL HUB PARTICIPATION MUST BE COMMERCIALY USEFUL TO THIS PROJECT. “Commercially Useful” means the goods and/or services to be provided by the HUB firm are a direct function of the scope of services described in the RFP. The HUB requirement may be met in several ways: (1) by identifying yourself as a certified HUB vendor who intends to perform a minimum of the required HUB participation for this RFP; (2) by engaging in a joint venture with a certified HUB firm; (3) by subcontracting with a certified HUB firm(s); or (4) by making second-tier purchases from a certified HUB firm(s). Respondents are free to meet HUB participation requirements with any certified HUB vendor as long as proof of certification is provided. You may also contact CCS for a list of MPS-registered HUB firms.

A HUB Utilization Plan, attached as Appendix A, must be completed to document how you expect to meet the HUB requirement for this project. This will become a binding part of the contract. Failure to return the HUB Utilization Plan will result in your proposal being deemed non-responsive and ineligible for consideration. MPS reserves the right to award a contract to the vendor who submits a meaningful utilization plan that provides a real opportunity for HUB involvement.

Contractors with questions about the HUB Program before contract award should email those questions to mpsrfps@milwaukee.k12.wi.us.

Student Engagement Program

The Student Engagement Program seeks to maximize contractor involvement in career education and employment opportunities for students. The anticipated results are young people who are able to make better career and post-high school education choices that ultimately have a positive effect on our local business community. This program component consists of specific requirements for contractors to engage in. They are: (1) career education activities that directly involve MPS students and/or (2) fulfilling paid student employment hours that provide students with an actual work experience. **The students must be MPS students registered through CCS who have completed the required job readiness training.**

A. Qualified Recipients

Career Awareness/Education Activities: (1) any school that is the contracted project site or (2) other CCS-approved options.

Student Employment Requirement: (1) high school students, 16 years or older, who are currently enrolled in an MPS school and have participated in CCS Job Readiness Training, or (2) with prior authorization from CCS, students who have graduated from an MPS high school not more than twelve months from their date of matriculation and have received job readiness training provided by CCS.

B. Student Engagement Requirements

1. All vendors shall provide ten (10) hours of career education activities on each contract unless otherwise specified in the RFP. Contractors are allowed two (2) hours of preparation time per MPS project. This two (2) hour preparation time is not applied to the requirement until the actual activities have been completed. The remaining eight (8) hours must be **actual engagement with MPS students that provides a meaningful career-related experience.**
2. If a project is required to have student employment, MPS shall designate prior to bid, the total MPS student hours of employment required. The successful bidder will be required to commit to providing a meaningful employment experience for one or more MPS students. Under no circumstances shall students work under conditions that would be considered a hazardous work environment.

C. Program Specifications

1. Career Awareness/Education activities (with CCS approval) include but are not limited to the following:
 - a. Classroom presentations at MPS project sites or various contractor career-specific activities.
 - b. Full classroom or small group tours of office environments to provide an orientation to potential careers and the education-related skill involved in those careers. If a contractor is going to provide this type of activity, all required permission slips/arrangements must be made with the school by following normal field trip procedures. CCS only provides approval of activity type.
 - c. Classroom skill development project activities in conjunction with teacher lesson plans such as math, science, reading, writing, etc.
 - d. Other CCS-approved contractor-provided options.
2. Student employment participation can include but is not limited to the following activities:
 - a. Student summer employment placement (full-time/part-time).
 - b. Student after-school and weekend placement (20 hrs/wk max) where appropriate.
 - c. Placement with a sub-tier contractor on the project.
 - d. Alternative placement may be made when the contractor's place of employment is beyond the transportation resources of available students or when certain project circumstances exist that prevent student employment on the job site. In such cases, the contractor maintains responsibility for the student's work site and wages as well as ensuring a reasonably safe and meaningful work experience. All alternative work assignments are the responsibility of the prime contractor and **require CCS approval.**
 - e. Other CCS-approved contractor provided options.
3. Extended Student absences – Students must notify hiring contractor of any planned family or other absences that will occur during the employment period.
4. Super Student Status – Contractors who retain or rehire an MPS student or graduate from the CCS student database on or across multiple projects within a maximum 12 month period from original hire date, or have maintained employment for at least six (6) months beyond that past contract period, shall be able to count current hours worked by that same student at 1.25 hours for every hour worked on the new contract. Contractors planning to take advantage of Super Student status must submit a letter to CCS with this request. Request must be submitted before the beginning of the project. This status must also be noted on the Schedule H2 submitted with each invoice to MPS. Super Students retain this status for 24 months following the approved request.
5. Career Awareness/Education Banking Hours - A contractor may perform career awareness/education hours a maximum of 12 months in advance of having a contractual requirement for student engagement. Contractor must submit a written request to CCS for approval to bank hours PRIOR to the activity. No credit will be allowed after activity has been completed without prior approval. The Education Hour Confirmation form must be submitted to CCS no less than 10 days following the activity.
6. No other CCS requirements may be banked.

MPS shall withhold funds from the pay request when Student Engagement requirements are not met. Other sanctions may include withholding of payments, termination, suspension, or cancellation of the contract in whole or in part, prohibition from participation in any further contracts awarded by MPS for a specified period of up to three years, and any other remedy available to MPS at law or in equity.

Contractors with questions about the Student Engagement Program before contract award should email those questions to mpsrfps@milwaukee.k12.wi.us
