C032037	V000000270	AGAPE YOGASTRY	LA-LANCASTER SCHOOL	4,999.00	0.00	4,999.00	9,998.00

Contractor shall provide Lancaster Elementary School with twenty (20) yoga programming sessions. This course examines the fundamental concepts and techniques of yoga through the exploration of pranayama (breath) and asana (postures). A productive and well-rounded scholar must understand how the mind, body, and spirit are connected and the importance of feeding all three to be successful. Students will learn a variety of techniques to develop mental and physical practices to deal with life as a pre-teen in preparation for teenager life, adulthood, high school, college, and beyond. We will explore ways to acknowledge physical, mental, and emotional stimuli and cultivate a way to work through challenging "poses" in life, be them physical, mental, or emotional. Students will learn effective self-regulation techniques and unique coping mechanisms to increase social emotional intelligence. We will also incorporate these concepts in artistic and recreational ways that are engaging to students of all grade levels. At the end of the semester students will be able to: Define and identify key aspects of yoga Demonstrate proper breathing techniques Successfully complete a yoga practice including; stillness, warm-up, flow, cool down, and stillness. Identify strategies to better handle challenging situations as they arise through mindfulness and meditation techniques Develop a stronger sense of self Materials needed: 1 yoga mat per student (ideal but not necessary)Wifi/Internet access Reflection Worksheet: per student (weekly)* contingent on grade level Disinfectant wipes Semi-private practice space to allow lights to be dimmed. Term: 10/1/23-12/15/23 Compensation not to exceed: \$4,999.00

"Healthy Communities, Big and Small" enhances our existing programming, "The Scientist and Artist in You" by including more topic areas within the arts and humanities. It emphasizes the interconnectedness of our systems to guide children to develop a better understanding of the role they play in their own communities and explore the reciprocal impact, big and small, they have on other communities. The program combines art and humanities activities using nature as a classroom and utilizes existing program elements, such as emotional health components, and community partnerships. By widening their perspective of the world, our hope is that the program will allow children to grow as individuals, becoming healthier and more active citizens. TERM: 8/16/23 - 9/30/25

Contractor shall specifically perform the following tasks: The Contractor shall help create pollinator gardens in three Milwaukee schoolyard areas with funding from the Growing Minds, Growing Gardens grant. Pollinator gardens will be established at Story School, Bethune Academy, and Zablocki School. The program will: 1. Educate students, families, and the community on how plants in the landscape impact local insect communities and broader ecosystem function. 2. Increase student knowledge on the importance of insect-plant interactions, including pollination syndromes, host plant specificity, and the essential roles insects play in ecosystems as decomposers, herbivores, predators, and prey. 3. Increase student's ability to identify native Wisconsin plants and describe their unique and beneficial ecological relationships with invertebrates. 4. Provide habitat for native pollinators and other invertebrates. The successful implementation of the pollinator gardens program will include the three phases of planning, implementation, and programming. 1. Planning Phase: Meeting with district staff, assessing garden sites, presenting/meeting with educators and students to discuss insect/plant interactions, and finalizing and drawing designs. 2. Implementation Phase: Generate final lists of materials and plants, design work plans for construction and plant beds, build gardens with students and staff, and perform Season 1 garden maintenance. 3. Programming/Maintenance Phase: Develop/adapt a curriculum on insect habitat/biodiversity, Season 2 seasonal replanting/springtime maintenance, ongoing maintenance, and develop and finalize maintenance plan.
