---------	----------	------------------------------	------------------------------------	--------	------	--------	----------

Milwaukee Symphony Orchestra will provide Bay View Montessori School's Lower Campus with access to their Virtual ACE program. This program includes the following: Links to videos created by the ACE Ensembles. These videos will be grade level appropriate and provided directly to the grade level teacher. Student participation will be directed by the teacher and should allow time for student activities related to the performance. Bay View Montessori staff participating in the program will be provided with toolkits that contain pre- and post- presentation activities that integrate arts, ensemble background information and other resources. These will be delivered two weeks prior to each video release via email directly to the participating grade level teacher.

There will be live virtual Q & A time with an ACE artist for each grade level participating. These will be scheduled with the grade level teacher and the artist. This gives students an opportunity to interact with the ACE artist in real time and ask questions regarding the presentation. Questions can be forwarded prior to the presentation via email as well. If circumstances allow, each grade level would attend a live ACE concert in the Spring. The concerts would also be live-streamed for students unable to attend in person. If concerts are not able to occur, a possible virtual option will be explored.

Virtual PD sessions will be offered to introduce Bay View Montessori staff participating in this program to the new ACE format and give opportunities to learn from other teachers. Access to many resources on the ACE website, MSO ACE staff and teacher mentors will also be available. Bay View Montessori staff participating in this program will complete a reflection document at the end of the school year.

This program is for the k5-3rd grade lower elementary students.
