<u>Funder</u>	<u>Proposal</u>	<u>Total Awarded</u>	<u>Abstract</u>
Wisconsin DPI	DPI School Mental Health Program	75,000	The School-based Mental Health Services Grant will allow MPS to expand and enhance the work of SCPMH that has already begun by allowing schools to offer assistance to a larger percentage of children in need. As a result of this project, there will be increased coordination of services between school-based and community-based mental health systems. Using a detailed SCPMH referral process, school and community staff work together to identify and serve students and families who otherwise would not access needed mental health services, regardless of insurance status. The resulting increase in students served will ultimately lead to increased school engagement.
