 - 1. Provider will maintain adequate source records relating to program fees and revenue-generating activities, *i.e.*, program fees, field trips, and fundraisers, and include documentation of all funds collected under "CLC Program Revenue" on the Monthly Cost Reports. All income must be spent during the program year in which the funds were generated. Upon request, records related to revenue expenditure must be provided to MPS. Failure to report revenue associated with CLC operations may result in the termination of this Contract in MPS's sole discretion.
 - 2. Unless prior written approval by MPS has been received, Provider will not exceed the suggested fee limits as set by MPS and/or the Department of Public Instruction. Provider must make accommodations to service all CLC participants regardless of their ability to pay.

In the event Wisconsin Shares childcare subsidies are utilized, Provider must meet the standards for licensed childcare centers established by the Wisconsin Department of Children and Families and participate in the YoungStar Quality Rating and Improvement system. Wisconsin Shares Child Care Subsidies are only to be used for CLC purposes and must be spent in accordance with the authorized cost categories as identified in **Appendix G**. CLC funds will be expended in the following order:

Provider will submit by the 28th of each month, to the MPS Department of Recreation and Community Services; Attn: Michelle Porter; 5225 West Vliet Street, Room 162; Milwaukee, WI 53208, a completed "Monthly Cost Report." Provider will have 30 days from the end of the CLC Program to submit all financial documentation, including, but not limited to Cost Report Schedules of payments, and invoices and receipts for "final" reimbursement of program expenses. Any reimbursement requests submitted after that date may not, in MPS's sole discretion, be approved for reimbursement.
 - 2. Provider will include, with each Monthly Cost Report submitted, the following documentation:

 - Provider will have each Monthly Cost Report signed by the school principal and lead agency authorized organizational officer and identify the name and telephone number of the person responsible for its preparation.
 - 4. Provider will assure that all Cost Report documentations are legible, clear, and organized in their submission, recognizing that any required document that isn't submitted or is in error will reduce or delay the payment requested.

VI. CONTRACT COMPLIANCE SERVICES (CCS) REQUIREMENTS

- A. In educating the children and youth of Milwaukee, MPS is also a primary purchaser of goods and services in the Milwaukee marketplace. MPS believes it is obligated to display in its own operations the values of excellence, diversity, and economic responsibility that it strives to teach its students.
 - To that end, MPS requires for this Contract the use of Historically Underutilized Business (HUB) firms and the engagement of the MPS contract awardee in Student Engagement activities.
- B. The HUB participation requirement for this Contract is 10% per 12-month contract period of total purchased goods and/or services by a certified HUB vendor, including, but not limited to: general supplies, office supplies, program supplies, equipment rental, contractual services, and transportation.
- C. All information relating to the HUB participation requirement and the Student Engagement Requirement, including all forms required to document compliance with these requirements, can be found at http://www.milwaukee.k12.wi.us (click on Vendors, then click on Forms), which is herein expressly

- incorporated by reference.
- D. Provider must submit a HUB Utilization Plan. No credit for participation will be granted until MPS-recognized HUB Firm certification documentation is received.
- E. Provider is responsible for verifying with any HUB vendor that certification is current and that the North American Industry Classification System (NAICS) description (or qualifications description on the certification document) matches the commercially useful function listed in Appendix H to this Contract.
- F. The forms attached hereto as **Appendix H1 H3** and incorporated by reference are a binding part of this Contract. Failure to return these forms within the required timeline will result in the termination of this Contract. Fillable versions of these same forms can also be found at http://www.milwaukee.k12.wi.us (click on Vendors, then click on Forms):
 - 1. HUB Utilization Plan (current certification document, with NAICS code, must be submitted);
 - 2. Prime Vendor Information Sheet; and
- G. Student Career Awareness/Education Plan/Commitment.
 - 1. The Student Engagement Requirement is 10 hours of Career Education per 12-month contract.

VII. PROGRAM EVALUATIONS AND AUDITS

- A. If Provider is required, under the statutory requirements and provisions of P.L.98-502 or the requirements of 2 C.F.R. § 200.501, to have a single audit, Provider will provide MPS a copy of its annual single audit no later than 90 days after the end of Provider's fiscal year. If Provider is not required to have a single audit, a written letter affirming this will be submitted to MPS no later than 30 days after receiving and signing this Contract.
- B. Provider will grant MPS or any authorized MPS representative the right to conduct a program evaluation and/or a contract compliance/financial audit of the program funded under this Contract for a period of up to three years following the expiration of this Contract. If Provider fails to allow the audit, this Contract will become null and void and all funds previously advanced under this Contract will be returned from Provider to MPS.
- C. If any audit identifies costs as inappropriate, MPS will be entitled to recover any payments made to Provider under this Contract.

VIII. ADDITIONAL CONDITIONS

- A. Provider will comply with the following state and federal laws and regulations:
 - 1. Title VI of the Civil Rights Act of 1964, (P.L. 88-352), which prohibits discrimination on the basis of race, color or national origin;

- B. Provider agrees to strive to implement the principles of equal employment opportunities through an effective Affirmative Action program. A copy of such program shall be produced by Provider upon request by MPS. The program shall set its objective to increase the utilization of women, minorities and handicapped persons, and other protected groups, at all levels of employment in all divisions of Provider's work force, where these groups may have been previously under-utilized and under-represented. Provider also agrees, in the event of any dispute as to compliance with the aforementioned requirements, it shall be Provider's burden to show it has met all such requirements.
 - 1. When a violation of the non-discrimination, equal opportunity, and/or affirmative action provision of this Contract has been determined by MPS, Provider shall immediately be informed of the violation and directed to take all action necessary to halt the violation, as well as such action as may be necessary to correct, if possible, any injustice to any person adversely affected by the violation, and immediately take steps to prevent further violations.
 - 2. If, after notice to Provider of a violation of the non-discrimination, equal opportunity and/or affirmative action provision of this Contract, further violation of those provisions are committed during the term of the Contract, MPS may terminate the Contract without liability for any remaining funds which may be disbursed. MPS, at its sole discretion, may permit Provider to complete the Contract. In the case of any violations of these provisions, Provider may be ineligible to participate in future contracts with MPS.
- C. Provider must comply with all requirements of Wis. Stats. § 48.685 and § 48.686, which identify the standards required for criminal history and child abuse record searches for licensed Caregivers and Child Care Programs.
 - 1. Provider will conduct, at Provider's expense, any and all required background checks, as set forth below:
 - i. Providers participating in the YoungStar Quality Rating System and receiving Wisconsin Shares Child Care Subsidies must abide by all background check requirements prescribed by the Wisconsin Department of Children and Families ("Department"), including, but not limited to:
 - 1. Submitting a request to the Department for a criminal background check for each potential caregiver and at least once every 5-year period for each existing caregiver;
 - 2. Obtaining FBI fingerprint checks every five (5) years;
 - 3. Submitting background checks for any and all employees and contractors with the opportunity for unrestricted access to children;
 - 4. Using the Child Care Provider Portal (CCPP) to submit new and prospective employee information needed to trigger fingerprint-based checks;
 - 5. Abiding by all other requirements prescribed by the Department, available at https://dcf.wisconsin.gov/ccbgcheck.
 - ii. Providers not subject to the requirements set forth in the above **Section VIII(C)1.a.** must obtain a criminal information background check through the Wisconsin Department of Justice (https://recordcheck.doj.wi.gov/) and other states' agencies, as applicable, on all current and potential administrators, board members, officers, full-time employees, part-time employees and volunteers who have, or who are anticipated to have direct, unsupervised contact with children throughout the Fall Recreation Program. (Note: No background checks are required for youth mentors/workers who are under the age of 18).
 - 1. An out-of-state background check should be completed in the state(s) in which the individual resided for at least six months within the last ten years and was 18 years or older at the time.
 - 2. For purposes of this Contract, a volunteer is any non-paid person who provides services on a regular and ongoing basis for more than five hours a week. A volunteer is not a parent or other adult who is a one-time volunteer for a field trip or other one-time-only activity. Provider will use good judgment in accepting the services of a volunteer and will be familiar with the volunteer before accepting services of that volunteer.
 - 3. No later than one month before work with children at the CLC program begins, Provider will electronically submit completed background checks for all individuals providing services under this Contract utilizing the Smart Sheet link provided herein: https://app.smartsheet.com/b/form/9095513a736c49a791df055c1e2fa879. Records that indicate a history of conviction or pending criminal charges will be reviewed by the MPS Department of Employment Relations. Thereafter, MPS will immediately notify Provider of any individual(s) who, based on MPS standards, should not have contact with children. Failure to submit the results of any crime information records checks prior to the provision of

services will result in the termination of services. All determinations made by MPS with regards to whether an individual is fit to provide services under this Contract are made in MPS's sole discretion.

- iii. As required by law, Providers shall complete the other searches required by Wis. Stat. § 48.685, review the results and determine that there is nothing in the background of Provider's employees, agents or sub-contractors that would render them unfit to provide services under this Contract where there is contact and access to children. Background factors that would disqualify any individual from providing services to MPS include, but are not limited to: falsification of background information; conviction of a criminal offense that substantially relates to the duties and responsibilities to be assigned to or performed by Provider under this Contract; or pending criminal charges alleging acts of a similar nature. Provider has a duty to retain all documentation related to background checks and other searches performed pursuant to this Contract and Wis. Stat. § 48.685 on file for the duration of this Contract and to provide the same to MPS upon request.
- D. For purposes of this Contract, a volunteer is any non-paid person who provides services on a regular and ongoing basis for more than five hours a week. Provider shall use good judgment in accepting the services of a volunteer, and shall be familiar with the volunteer before accepting services of that volunteer. In the event Provider hires, or accepts as a volunteer, any individual during the term of this Contract to provide services under this Contract, the requirements of **Section VIII**. must be fulfilled before said individual is allowed to have contact with children participating in the 21st Century Community Learning Centers Program.

IX. INFORMATION AND REPORTS

- A. Provider will give information at such times and in such forms as may be requested by MPS, or its designee, concerning any of the operations of the CLC Program. Provider will generate and provide this information in a format and at the time as requested by MPS or its designee.
- B. Provider is required to submit two (2) completed CLC Program Plans to the Milwaukee Recreation CLC Project Team, in Room 163 of MPS's Administration Building, according to the following schedule:
 - 1. Program Plan for Cycle 1: Due no later than August 30, 2024;
 - 2. Program Plan for Cycle 2: Due no later than January 10, 2025. (The submission of a Cycle 2 Program Plan is required only for those CLCs making changes or additions to Cycle 1 activities, programming, program operations.)
- C. Provider is required to have two (2), maximum of three (3) CLC staff, (one (1) of whom must be the Site Coordinator), trained on the Cayen APlus system at all times under this contract to enter CLC attendance data on a daily basis. Monthly cost reimbursements for CLC expenditures will not be released by MPS until two (2) CLC staff are trained and all monthly attendance data has been entered into the Cayen APlus system.
 - All data must be entered accurately and honestly to reflect actual participant counts. Falsification of data will be grounds for termination of this Contract with no further liability on the part of MPS.
 - 1. Provider understands that site access to Cayen APlus may be discontinued if two (2) CLC staff are not trained in the Cayen APlus System.
- D. Provider will notify the Before/After-School Coordinator of MPS's Department of Recreation and Community Services of any correspondence regarding the CLC Program received from the United States Department of Education or the WDPI that requires a formal response.

Nita M. Lowey 21st Century Community Learning Center Grant Program Title IV. Part B. of the Every Student Succeeds Act (ESSA) **Program Guidelines and Requirements**

What Is the Purpose of the Nita M. Lowey 21st Century Community Learning Center Grant Program?

A 21st Century Community Learning Center (CCLC) is a program that assists students in meeting challenging academic standards, provides students with academic enrichment activities, and offers a broad array of other activities that enrich students' lives and skills during non-school hours or periods when school is not in session (such as before and after school, weekends, or during school breaks) that:

- reinforce and complement the regular academic programs of the schools attended by participating students;
- are targeted to students' academic needs and align with the instruction students receive during the school day.

21st Century Community Learning Center Programs also offer adult family members of participating students opportunities for active and meaningful engagement in their children's education, including opportunities for their own educational and skill development.

A 21st Century Community Learning Center program strives to meet the needs of the students served, by addressing their academic, social, creative, emotional, and curiosity needs. 21st CCLC programs offer students a chance to explore new topics and deepen their understanding and knowledge of others. They invite community partners to engage with students through real world learning opportunities, collaborative partnerships, mentoring, apprenticeships, workforce development, and more. 21st CCLC programs encourage students to become active participants in their communities through service learning projects, project-based learning experiences, environmental literacy and citizen science projects.

What Student Populations Are the Priorities for 21st CCLCs?

The 21st Century Community Learning Center Program targets elementary, middle and high schools that have high concentrations of students with economic and academic needs. A local education agency (LEA), community-based organization, Indian tribe or tribal organization (as such terms are defined in section 4 of the Indian Self Determination and Education Act (25 U.S.C. 450b)), another public or private entity, or a consortium of two or more such agencies, organizations, or entities may be eligible to apply as long as they target a qualifying school.

Guiding Principles for 21st CCLC Programs in Wisconsin

21st CCLC programs across Wisconsin are dynamic and complex environments that require innovative approaches to achieving the most impact for youth. No one setting is the same and there are many ways for programs to achieve excellence. DPI has developed a set of principles to help guide programs in that work. These guiding principles can both serve as a foundation and be adapted to local situations. It is the DPI's hope that the principles will inspire and provide direction to Wisconsin 21st CCLC programs as they strive to provide high quality out-of-school time experiences to students across the state.

REQUIREMENTS

Program Description

The Nita M. Lowey 21st Century Community Learning Center (CCLC) Grant funded programs provide a broad array of activities during out-of-school time (such as before and after school, weekends and during school breaks). Grantees provide academic enrichment services that align to academic standards, the identified learning needs, and interests of students. Grantees also provide students with access to a wide variety of additional learning opportunities, such as those that focus on youth development, social and emotional learning (SEL), civic engagement, and nutritional and physical health. Additionally, grantees provide the adult family members of program participants opportunities for their own educational development and engagement in their children's education.

Grant awards are made for five consecutive years and are contingent upon satisfactory progress toward goals. Grantees are required to evaluate their program performance and report to DPI on their progress. A description of the evaluation requirements and access to the annually published DPI Statewide Evaluation Reports can be found on the 21st CCLC Evaluation webpage.

Program Overview and Purpose of Funding

The Wisconsin Department of Public Instruction (DPI) has administered the Nita M. Lowey 21st Century Community Learning Centers (21st CCLC) grant program since 2002 when it was integrated into the Elementary and Secondary Education Act (ESEA). This grant funds Community Learning Centers which provide students with academic enrichment activities and a broad array of other activities during non-school hours or during periods when school is not in session.

The passage of the Every Student Succeeds Act (ESSA) of 2015 amended ESEA and altered the focus of the 21st CCLC grant program to focus funding on before- and after-school programs that align academic services to the identified needs of students and to state academic standards. The ESSA also broadened the allowable activities to include such things as environmental literacy and apprenticeships.

Authorized under Title IV, Part B of ESEA, and targeting schools and communities in need of services, the purpose of the 21st CCLC program is threefold. Funded entities must:

- 1. provide opportunities for academic enrichment to assist students in meeting the state academic standards;
- 2. offer students access to a broad array of additional services, such as those that focus on youth development, social and emotional learning (SEL), civic engagement, and nutritional and physical health; and
- 3. offer adult family members of program participants opportunities for educational development and engagement in their children's education.

Grant funds will primarily serve students attending schools that are implementing comprehensive support and improvement activities or targeted support (per Title I designation) or serve students who attend schools identified by the local education agency (LEA) to be in need of intervention and support. The 21st CCLC program must primarily target students enrolled in a school eligible for schoolwide Title I designation.

21st CCLC funds may be used to fund new after-school programs or expand and enhance current activities provided in existing after-school programs, whether supported by public or private funds. For example, a grantee may use funds to align activities to help students meet local and state academic standards if those services are not part of the current after-school program. Again, grantees must remember that 21st CCLC funds can be used only to supplement and not supplant any federal or nonfederal funds used to support current programs. Grant funds cannot be used to supplant any existing local, state, or federal funding to support programming.

The DPI does not currently allow applicants to apply to use these grant funds for Expanded Learning Program Activities, as defined under ESEA, § 4204(a)(2).

For more information about the 21st CCLC grant program, including guidance on planning and implementing a CLC program, review the Introduction to 21st CCLC on the You For Youth (Y4Y) website.

Length of Grant Award

(ATTACHMENT 4) ACTION ON THE AWARD OF PROFESSIONAL SERVICES CONTRACTS
The DPI makes grant awards for five years to successful applicants. Annual grant awards will be issued dependent

upon the availability of funds and demonstrated satisfactory progress. The DPI does not currently allow for automatic renewability of a sub grant after a five-year cycle. All current grantees ending a five-year cycle must reapply to compete for a new cycle of funding, per ESEA, § 4204(j).

Priorities

The DPI prioritizes 21st CCLC grant applications that:

- 1. Propose to target services to
 - a. students that attend schools that -
 - i. have been identified by DPI as Comprehensive Support and Improvement (CSI) or Targeted Support and Improvement (TSI) schools (see <u>DPI's Federal Accountability [ESSA] website</u>); OR
 - ii. have been determined by the LEA to be in need of intervention and support to improve students' academic achievement and other outcomes;
 AND
 - enroll students that may be at risk for academic failure, dropping out of school, involvement in criminal or delinquent activities, or who lack strong positive role models; and
 - b. the families of students described above.
- 2. Are submitted jointly by eligible entities consisting of at least one LEA receiving funds under Title I, Part A, and at least one other eligible entity.
- Demonstrate that the activities proposed in the application are, as of the date of submission, not accessible to students that would be served or would expand accessibility to high-quality services that may be available in the community.

The DPI does not maintain a list of schools determined as in need of services by the LEA, nor does the DPI dictate what specific elements an LEA must reference when making this determination. The LEA should consider the degree of academic need and other risk factors when identifying schools in need of services.

In accordance with ESSA regulations, when possible, the DPI will distribute grant funds equitably among geographic areas within the State, including urban and rural communities.

Program Services and Activity Requirements

Program Services for Participants:

Each eligible organization that receives an award must use the funds to carry out a broad array of activities that advance student achievement during out-of-school time (i.e., before school, after allowable, the primary use of grant funds must be to deliver programming during the regular school year. 21st CCLC grant funds cannot be used to provide programming for students during the school day.

Programs must provide academic enrichment activities on a regular basis to all enrolled participants. Academic enrichment is programming that primarily aims to help students in meeting challenging state and local academic standards by intentionally embedding core content learning (i.e., English Language Arts, mathematics, social studies, and science) into activities that reinforce and enhance academic learning without replicating the school day. Academic activities are standards-based, developmentally appropriate, intentional, and build skills in a sequential way. At the same time, academic programming is distinctly and intentionally different from that of the school day and often engages students in active learning and provides opportunities to apply learning to real-world problems. This could include project-based learning (PBL) and service learning experiences meaningful to students. Ideally, such learning would not be limited to computer-based educational software or a one-dimensional approach.

In addition, programs must provide services in two or more program areas that promote the development of other skills that contribute to student success, such as youth development, recreational, and SEL activities.

Program Services for the Adult Family Members of Participants:

21st CCLC programs are also required to provide educational services or activities for the adult family members of participants. In particular, local programs must offer services to support the involvement of adult family members in their student's education, including services that are designed to advance students' academic achievement. Services may also be provided that support the literacy and related educational development of adult family members. Services for families may take place during the school day or during out-of-school hours. These services may be offered virtually or in-person. Programs should plan and provide a minimum of four adult or family events or programs per school year.

Equitable Access to Program Services

Communication with Community: All applicants are required to notify the community of their intent to apply for funds and that the application will be available for public review after submission. It is the responsibility of the applicant to maintain records that this requirement has been met.

Students with Disabilities: All students are eligible to participate in 21st CCLC programs on an equitable basis, including students with disabilities. As such, grantees are reminded of their obligation under § 504 of the Rehabilitation Act of 1973 to ensure that their proposed 21st CCLC program does not discriminate against students on the basis of disability. § 504 provides: "No otherwise qualified individual with a disability in the United States . . . shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance . . ." For more information on this obligation, visit the Office for Civil Rights' Protecting Students with Disabilities. The DPI has also developed The DPI has also developed guidelines for 21st CCLC grantees that provide a brief overview of the obligations of 21st CCLC programs under § 504.

Program Staffing

Granted programs are required to hire a dedicated program coordinator to manage day-to-day programming, coordinate

partnerships, manage line staff, coordinate program activities, and ensure grant requirements are met. It is not acceptable to split this position between multiple individuals. It is DPI's expectation that one person be the identified, dedicated coordinator. If the coordinator is responsible for one center, they must dedicate a minimum of 20 hours per week toward program management and oversight. If the coordinator is responsible for two or more centers, they must dedicate 40 hours per week toward program management and oversight. Grantees should maintain records of staff time in order to document that this requirement is met.

In addition, grantees should hire staff who are qualified to deliver high quality programming as described in the application's *Do (Action Plan)* section. This may or may not include certified teaching staff, youth development professionals, paraprofessionals, or other qualified community members. Efforts should be made to ensure that staff are qualified to work with youth in the capacity described in the application. Grantees may elect to employ a combination of staff (i.e., certified teaching staff and youth development professionals) depending on the programming offered

Evaluation Requirements

Grantee Data Reporting Requirements

All grantees are required to report required data, evaluate progress towards meeting established goals, and make local evaluation results available to the community. All grantees are required to participate in data collection and review and to disseminate local evaluation results in order to ensure high-quality programs with tangible outcomes. The following data and evaluation requirements are conditions of the award:

- Develop specific, measurable, attainable, relevant, and time-bound (SMART) goals with measurable outcomes and a plan for how such outcomes will be measured, tracked and shared with stakeholders. Program goals and targeted outcomes should align with the DPI State Goals and Objectives for the 21st CCLC program and the Guiding Principles for 21st CCLC Programs in WI.
- Regularly evaluate progress towards meeting the goals and outcomes articulated in the grant proposal and make the evaluation results available to the public (i.e., publish on the website, published in the local newspaper, presented to the school board and published in the school board meeting notes, etc.).
- Submit program and student data required for federal and State reporting using DPI's statewide evaluation system, known as Cayen AS21 (MPS's Cayen APlus). Data should be entered at least monthly.
- Certify program data that is reported by DPI to the federal Department of Education two times per year. [NOTE: Certification of CLC program data is only completed by MPS/Milwaukee Recreation.]
- Submit a Yearly Progress Report (YPR) to DPI indicating progress toward program outcomes and plan implementation.
- Participate in a self-assessment process using one of the self-assessment tools and schedule approved by the DPI.

For more information on the required data to be collected and the process and schedule of required data reporting, visit the DPI 21st CCLC Evaluation website.

Fiscal Management Requirements (Milwaukee Public Schools/Milwaukee Recreation)

Fiscal Responsibilities

MPS/Milwaukee Recreation is the fiscal agent for MPS 21st CCLC programs. The fiscal agent is the entity that provides fiscal management, accounting, and reporting services on behalf of the organization receiving funding under a grant. The fiscal agent may not subcontract more than 95 percent of the award. The fiscal agent is responsible for ensuring that grant funds are administered according to the applicable federal grant financial management and administrative requirements of DPI's policies and guidance. This includes:

- Working with program staff to submit application materials, including assurances, project work plans, and budgets.
- Hiring or contracting for program staff.
- Issuing grant-funded subcontracts.

- Managing all purchasing.
- Submitting quarterly financial claims.
- Submitting required reports by September 30.
- Submitting adjustments, changes, or alterations to the grant project to DPI grant staff throughout the grant year. Significant changes to the grant project require pre-approval by DPI grant staff and are due by May 30.
- Maintain fiscal and program records in accordance with the applicable guidelines.

21st CCLC programs must comply with all the applicable requirements in the <u>Uniform Administrative Requirements</u>, Cost Principles, and Audit Requirements for Federal Awards (2 CFR), the <u>Education Department General Administrative Regulations (EDGAR)</u> requirements, state statutes, rules, policies and guidance, assurances and certifications as prescribed by the DPI.

MPS Budgeting and Allowable Costs

The fiscal agent (MPS/Recreation) was required to submit a budget for the 21st CCLC program when the grant award proposal were approved using DPI's online grant management system, WISEgrants. Because MPS subcontracts with a single agency (lead agency) for 25 percent or more of the award, grantees were also asked to provide a detailed budget of those expenses. Items included in the budget should have aligned with the program activities described in the applicant's proposal narrative. All CLC program costs must be reasonable and necessary to carry out the objectives and plan as described in the funded grant proposal. In addition, all costs must be allowable under federal law. For a detailed description of the budgeting process and a list of common allowable and unallowable costs, please consult the Allowable Costs Associated with 21st CCLC guide.

Local Match

There are no requirements for a match or in-kind contributions for this grant program; however, CLC grantees are encouraged to seek in-kind and matching funds to contribute to the program's sustainability. A multi-year, long-term sustainability plan is required for all MPS CLCs.

Program Income and Participation Fees

The Wisconsin Department of Public Instruction (DPI) highly discourages grant subrecipients (MPS CLC Lead Agencies) from charging fees for program services. If you subcontract for program services, the grantee (MPS/Milwaukee Recreation) is responsible for ensuring that all program income guidelines are followed by the subcontracted organization (MPS CLC Lead Agency). However, 21st Century Community Learning Centers (21st CCLC) programs are allowed to generate income under certain circumstances. Program income is any revenue generated as a direct result of the 21st CCLC award and is in addition to the federal funds provided by the state through its competitive subgrant application process. It includes the proceeds of fundraisers, such as bake sales, for which 21st CCLC funds were used to pay for the resources needed for the fundraiser (i.e., supplies, staff time, etc.). It also includes program fees. Program fees may include fees for services or grant-related activities. **Grantees may not charge a program registration fee, transportation fee, or similar.** Grantees must apply to generate income or charge participation fees on an annual basis. Grantees must be able to clearly justify why it is necessary and reasonable to generate income or charge a participation fee.

MPS NITA M. LOWEY 21ST CCLC GRANT PROGRAM GUIDELINES & REQUIREMENTS

Milwaukee Public Schools (MPS) requires each Nita M. Lowey 21st Century Community Learning Center (CLC) to create a CLC Program Plan that is closely aligned to and supports the School's Improvement Plan (SIP). CLC sites must provide academic enrichment activities designed to address identified achievement gaps and support student academic achievement in reading, math, and other areas of need. In addition to an academic component, each CLC is also required to design and implement activities and programs for youth recreation and family enrichment that support student learning. The CLC Program Plan should describe in detail these activities and programs. As partners, the School and the Lead Agency must work together to develop the CLC Program Plan. Each site's Program Plan will be reviewed and approved by the MPS Recreation CLC Project Team. A

All MPS CLC grantees must adhere to MPS CLC contractual standards and reporting and evaluation requirements. Evaluation of each site will be based on the CLC Program Standards. Please contact the Milwaukee Recreation CLC Office at (414) 475-8701 with any questions or for assistance in writing the CLC Program Plan.

MILWAUKEE PUBLIC SCHOOLS - CLC OBJECTIVES:

- Increase academic achievement of MPS students participating in CLC activities.
- Increase safety in and around the CLC.

How many SMART Goals are needed for State Goal 1, Priority 1.1 (quality staff)? - 1

State Goal 1, Priority 1.1, SMART Goal 1

SMART Goal 1 to Address the State Goal 1, Priority 1.1 (quality staff):

By June 2023, staff training logs will show that 75% of CLC group leaders will have actively participated in three or more professional development training that will increase their confidence and ability to deliver program activities that are designed to support the achievement of CLC and day school academic goals.

In the text box below, indicate the following: 1) the action steps the program will implement in order to address State Goal 1, Priority 1.1, SMART Goal 1 (the action steps should consist of the activities or services that program will offer), and 2) for each action step, the frequency with which the activity or service will take place (i.e., daily, weekly, and monthly, etc.).

SG1 - Priority 1.1: Quality Staff - Action Steps

- 1) CLC staff will participate in two MPS Recreation-lead training (Fall and Winter) that support tools and strategies to deliver LitART, Comic Book Club, and Lions Quest programs.
- 2) CLC staff will join two relevant day school training (Fall and Winter) that will help to strengthen the link between day school practice and policies to after-school programs in order to best address the academic and socio-cultural needs of students.
- 3) Twice each year, CLC staff will assess and reflect upon surveys and formal and informal feedback in order to identify the emerging needs of students and families. This information will be used by the lead agency to secure additional trainings that will provide the professional development necessary so staff feels confident in supporting students and families.
- 4) Monthly, CLC groups leaders will meet one-on-one with the CLC Academic Coordinator to review individual student data and grade-level data to chart progress to academic goals and identify additional programs or strategies needed to support student progress.

Allowable Costs Associated with the Nita M. Lowey 21st Century Community Learning Centers Grant

Wisconsin Department of Public Instruction

Introduction

"Allowable Costs" refers to items of cost that, in general, can be funded with Nita M. Lowey 21st Century Community Learning Centers (21st CCLC) federal grant dollars, as long as the cost fits within the framework of responsible stewardship of these public funds. Funds may be used to carry out a broad array of before- and after-school activities (or activities during other times when school is not in session) that advance student achievement. All activities must align with the three primary purposes of the 21st CCLC grant: 1) provide academic enrichment programming; 2) provide youth development activities; and 3) provide programming for the adult family members of 21st CCLC students.

Before any cost can be considered for reimbursement under the 21st CCLC grant, it must first be approved by a 21st CCLC consultant. When approving budgets, consultants consider several criteria, including whether 1) the cost is aligned with program goals and objectives; 2) the cost is reasonable and necessary; and 3) the cost is allowed under federal and state rules (e.g., supplement not supplant, time and effort, allowable costs for federal funds). Only approved, allowed costs may be charged to the 21st CCLC grant.

An explanation of the various terms related to spending federal grant funds can be found below, as well as a list of common allowable and unallowable costs for 21st CCLC programs.

Aligned with Program Goals and Objectives

To be considered an allowable cost, costs must be aligned with the approved program plan and be associated with one of the allowable activities under the 21st CCLC grant. 21st CCLC allowable activities include, mentoring programs; remedial education activities; tutoring services; service-learning programs; activities that enable students to be eligible for credit recovery; literacy education programs; mathematics education programs; arts and music programs; counseling programs; financial literacy programs; environmental literacy programs; nutritional education programs; regular, structured physical activity programs; services for individuals with disabilities; programs for English Language Learners (ELL); cultural programs; telecommunications and technology education programs; expanded library service hours; parenting skills programs that promote parental involvement and family literacy; programs that provide assistance to students who have been truant, suspended, or expelled; drug and violence prevention programs and counseling programs; programs that build skills in science, technology, engineering, and mathematics (STEM); programs that partner with in-demand fields of the local workforce or build career competencies and career readiness and ensure that local workforce and readiness skills are aligned with the Carl D. Perkins Career and Technical Education Act of 2008 and the Workforce Innovation and Opportunity Act.

Reasonable and Necessary

A cost is "reasonable" if, in its nature and amount, it does not exceed that which would be incurred by a prudent person or in the absence of federal funds. A cost is "necessary" if it meets an important program objective, meaning it addresses an existing need. Additional guidance about standards for determining reasonable and necessary costs for federal grants is available from Uniform Grant (2 CFR, § 200.404).

Supplement Versus Supplant

Many federal education programs are built on the premise that a local education agency (LEA) has a solid, core educational program in place for all students. This core educational program is to be funded with local and state monies. In general, the phrase "supplement, not supplant" refers to a federal program's requirement that federal funds should never be used to pay for costs that are considered part of the LEA's core educational program. This premise extends to participating organizations (e.g., nonprofits, private schools, etc.) where 21st CCLC grant funding cannot be used to pay for an organization's core business functions. Grant funds must be used only to supplement, not supplant, any federal, state, or local dollars available to support activities allowable under the 21st CCLC program. Supplementing with the 21st CCLC grant means that 21st CCLC monies are used to provide new services or to expand or enhance services that were already being provided using other funds. Supplanting with the 21st CCLC grant means that 21st CCLC monies are used to replace other funding sources used to provide services and is not allowed. This may include using 21st CCLC grant funds to replace local funding for existing out-of-school time programs.

The supplanting provision does not prohibit federal funds from being used to continue programs where a previous federal grant has ended, and other federal, state, or local funds would not have been available ($\frac{4204}{b}$).

Time And Effort

The salaries and wages of any employees charged to a federal grant, including the 21st CCLC grant, must be supported by some form of time and effort documentation that accurately reflects the work performed and supports the amount claimed against the grant. "Standards for Documentation of Personnel Expenses" are set forth by the Office of Management and Budget (CFR §200.430(i)). Additional technical assistance on time and effort documentation can be viewed here.

The Allowability of Common Costs Associated with 21st CCLC Grants

The following chart lists costs that may be incurred by 21st CCLC programs and indicate whether it is allowable to use grant funds to cover those costs. This list is not exhaustive, and there may be allowable costs that are not included here. Additionally, a cost may be classified as allowable on the list below, but your assigned 21st CCLC consultant may determine that it does not meet the criteria outlined in the previous section of this document. Contact your assigned 21st CCLC consultant to verify whether or not a cost is allowable prior to incurring any costs not included in your most currently-approved budget.

Please note that federal laws and rules can (and do) change. The Wisconsin Department of Public Instruction (DPI) will endeavor to update this document as change occurs.

Eligibility Chart

Using the color-coded key and chart below (organized by budget category), grantees can begin to determine if an expense their program is considering would be deemed eligible or ineligible. Before any cost can be considered for reimbursement under the 21st CCLC grant, it must first be approved by a 21st CCLC consultant.

Please note, this prohibition does not apply to the use of funds for activities that are otherwise permissible, and that "provide students with educational instruction or educational enrichment activities, such as archery, hunting, other shooting sports, or culinary arts." |

Before any cost can be considered for reimbursement under the 21st CCLC grant, it must first be approved by a 21st CCLC consultant. When approving budgets, consultants consider a number of criteria, including whether 1) the cost is aligned with program goals and objectives; 2) the cost is reasonable and necessary; and 3) the cost is allowed under federal and state rules (e.g., supplement not supplant, time and effort, allowable costs for federal funds). Only approved, allowed costs may be charged to the 21st CCLC grant.

If you have any questions about the budget items listed above or anything not listed, please contact your <u>21st CCLC consultant</u>.

DEPARTMENT OF CHILDREN AND FAMILIES ATTACHMENT 4) ACTION ON THE ANABERT ESSIONAL SERVICES CONTRACTS

Division of Early Care and Education

Health and Safety Checklist - Public School Operated Programs - DCF 251

Use of form: Section 120.13 (14), Wis. Stats., allows for school boards to establish and provide or contract for the provision of day care programs for children without being licensed by the department of children and families; However, those programs are required to meet the standards for licensed day care centers established by the department of children and families (DCF 251 Licensing Rules for Group Child Care Centers). In November of 2014, new federal requirements were signed into law that require annual inspection of public school operated programs as a condition of receiving federal child care subsidy funds. While every administrative rule in Chapter DCF 251 is important to the quality of the program, the department has identified a subset of rules which, if violated, are likely to pose the most serious threat to the health, safety and welfare of children in care. This checklist contains that subset of health and safety rules and will be used by DCF staff to notify public school operated child care programs of the rules within DCF 251 that will be monitored annually for compliance and to document program compliance and/ or areas of deficiency observed during the initial assessment visit.

Instructions - DCF Staff: During the initial assessment visit, address each item on the checklist to determine the program's compliance, or areas of deficiency, with the health and safety rules. If the program is in compliance with the specific rule, check "Met." If a specific rule does not apply to the program, check "N/A" for not applicable. If the program is not in compliance with the specific rule, record your observations in the comments section and describe the area of deficiency.

Instructions - Public School Operated Program: Public school operated child care programs may use this checklist to familiarize themselves with the health and safety rules that will be monitored annually. However, if the program is looking for a self-monitoring tool to ensure compliance with DCF 251 Licensing Rules for Group Child Care Centers in its entirety, they should refer to the department's form DCF-F-CFS0063 Licensing Checklist - Group Child Care Centers.

"School-age child" means a child 5 years of age or older who is enrolled in a public school or a parochial or other private school.
