New Menu

- Pre-pack lunch sites will receive more individual items, to allow students more choices each day. That way they can decline items they are not interested in via Offer vs. Serve.
- Two to three days per week there will be no cold packs made at the central kitchens. Items will be served directly from the kitchens
- Items that would normally be in a cold pack will now be placed in serving pans for students to select or decline. For example: fresh fruit, bagged baby carrots, bagged tortilla chips, condiments, salsa and marinara cups, crackers, individually wrapped sweet breads, cupped fruits, and individually wrapped desserts.
- Using a 5-compartment tray during service, the hot pack will be placed on the tray and allow room for students to choose bulk items/fresh fruit.
