

Dual Enrollment Opportunities for MPS Students 2021–2022

Dual enrollment/dual credit is when high school students earn both college and high school credit at the same time through a single class. The credit can be for a graduation requirement or an elective credit. Dual enrollment is recognized by the U.S. Department of Education What Works Clearinghouse as having positive effects on the completion of high school, college access and enrollment, credit accumulation, and students' degree attainment.

Transcribed Credit	Early College Credit Program Start College Now	M ³ College Connections	Contracted Courses (High School)	Contracted Courses (On Campus)
<p>A course taught by a certified high school teacher that counts as both a high school and college course. Primarily done through Milwaukee Area Technical College (MATC) but also can be a UW System university such as UW–Milwaukee. Teachers must qualify to teach the course and complete the required paperwork for the course to count as a college course. Students must register with the college/university (MATC/UWM).</p> <p>Examples include:</p> <ul style="list-style-type: none"> • CTE courses • Instruction related to youth apprenticeship • Courses in core content areas such as math 	<p>Early College Credit Program (ECCP) and Start College Now (SCN) were formerly known as Youth Options (YO). This state program allows individual students to take college courses at a four-year or technical college. Students must be accepted by the college, and the school district pays tuition. Students must apply early (October 1 and March 1) for classes in the following semester. Students are limited to no more than 18 credits through this program.</p>	<p>A cohort of students takes college courses through MATC and UWM that count for both college credit and toward the MPS graduation requirements. May use a corequisite model for students to cover both the college remedial and credit-bearing course content to increase success. Students remain attached to their home school and take all their courses on the college campus.</p> <p>Pathways include:</p> <ul style="list-style-type: none"> • General • Nursing • Education • Early childhood (spring) • TBD – alt. ed. (spring) 	<p>College courses from UWM or MATC that are co-taught by both an MATC/UWM instructor and MPS instructor at the high school. The MATC/UWM instructor typically co-teaches in the spring semester with the MPS instructor.</p> <p>Possible content areas include:</p> <ul style="list-style-type: none"> • English • Math • Science • World languages, including tribal languages • HVAC 	<p>Students take single courses at either MATC or UWM that are made up of MPS students only. Courses are offered in the morning or late afternoon. This option is for students who are attending schools that do not have enough students to have a full class at the high school.</p> <p>Possible content areas include:</p> <ul style="list-style-type: none"> • English • Math • Science • World languages, including tribal languages
