#### MPS Celebrates Black History Month

The spirit of Black History Month is thriving within the MPS community. Students and educators throughout the district have been effectively planning, preparing, and engaging in a myriad of activities, projects, and performances. The primary focus is to pay homage to the invaluable contributions of Black Americans who have not only played a crucial role in building our nation but also have contributed significantly to enhancing everyday lives and advocating for peace and equality.

The commitment to honoring the diverse narratives and achievements of Black Americans is evident in the various initiatives undertaken by both staff and students. Schools within the district have orchestrated programs that provide a platform for presentations highlighting the historical contributions of Black Americans. In a cornerstone of our Black History Month, celebrations, speeches, posters, essays, and performances continue to be powerful ways that students express their appreciation for the rich history and enduring legacies of Black Americans.

We take immense pride in the collective effort that our schools are making to bring Black History Month to life. The celebrations honor the past and foster a deep understanding of the ongoing efforts for equity and justice, ensuring that the legacy of Black Americans is acknowledged and celebrated throughout MPS.

## MPS's "Black Lives Matter at School" Week

## of Action

The Black Lives Matter at School Week of Action took place the week of February 5 and marked a compelling commencement to the celebration of Black History Month. This meaningful week, organized by the Black Lives Matter committee, featured a series of events aimed at promoting community engagement, amplifying student voice, and encouraging creative expressions of unity. Schools embraced a variety of activities and resources that assisted teachers with embedded lesson plans. This innovative approach created a deeper understanding and provided students with significant learning opportunities.

The after-school events were a particularly enlightening aspect of the Week of Action, where community leaders engaged with students, offering diverse perspectives to broaden awareness. These interactions were the preamble to thought-provoking discussions and inspired students to participate in creating positive change within their communities.

A special highlight of the week's events was the announcement of the Black Lives Matter logo contest student winner for the 2023–24 school year. D'Zariah Walker was congratulated by the Black Lives Matter committee for an exceptional design (pictured above). This recognition underscores the commitment of individuals such as the student logo winner to creatively contribute to the movement, highlighting the power of collective expression.

#### Celebrating 50 Years of Montessori

On February 10, MPS held an event to celebrate 50 years of Montessori education within the district. The event was attended by 1,700 current and prospective families, alumni, staff, board members, state representatives, and the Association Montessori International. Attendees enjoyed student performances, engaged with student demonstrations, mingled with staff from neighboring Montessori schools, and more. MPS has been a leader in delivering Montessori to the Milwaukee community for 50 years. Starting with four classrooms and growing to the now eight schools across the city, including a comprehensive K3–grade 12 school, MPS makes it possible for children to have a complete Montessori experience. Thank you to everyone who helped us celebrate this important milestone!

#### National School Counseling Week

During National School Counseling Week, observed February 5–9, 2024, we celebrated the invaluable contributions of school counselors in guiding students toward success in their academic endeavors. Sponsored by the American School Counselor Association, this week emphasizes the theme "School Counselors: Standards-Based, Student-Focused," which highlights the profound impact that these professionals have on students' achievements in their future aspirations.

The overarching goal of school counselors is to foster success by recognizing and addressing the unique needs of each child. Throughout the school year, counselors engage with students, encouraging them to explore their abilities and supporting their personal growth and development. This is achieved through collaboration with the student, educators, and parents to understand the student's strengths, interests, and talents.

MPS recognizes and appreciates that the tireless efforts of school counselors and their dedication, commitment, and influence on the lives of students are commendable. We extend our heartfelt gratitude to all school counselors for their daily efforts in supporting student achievement in school and nurturing their overall well-being. Thank you, counselors, for your unwavering commitment to the success and growth of our students.

#### "We Are the Drum" February 23–March 3

We are getting ready for an electrifying performance! MPS's talented singers, dancers, actors, and choreographers are gearing up for "We Are the Drum," a high-energy musical revue set to captivate audiences from February 23 to March 3, 2024, at Milwaukee Marshall High School, 4141 North 64th Street, Milwaukee.

Students of all ages from several MPS schools will be performing in this year's show. "We Are the Drum" is a community program offered by City at Peace in the Arts (CAPITA) Productions, a nonprofit organization with the mission of bridging cultural gaps, uniting Milwaukee-area youth, and offering a constructive outlet for creative expression.

Talented staff members and volunteers bring their energy to developing the talents of children who participate. A fee is not charged for children who take part in the show.

For more information, showtimes, and tickets, visit the CAPITA Productions website or visit the Facebook page for CAPITA productions.

#### Youth Apprenticeships and Internships

We are pleased to announce that 56 students have engaged in youth apprenticeships while another 299 students have participated in internships during the first semester of the 2023–24 school year. These exceptional learning opportunities covered a wide range of fields, reflecting the varied interests and aspirations of our students.

The fields covered by these apprenticeships and internships were extensive, showing MPS's commitment to providing a well-rounded and comprehensive learning experience for students. The fields that students supported during first semester were hospitality and tourism, health sciences, transportation, distribution and logistics, agriculture, food and nutrition resources, arts, audio visual technology and communications, manufacturing, information technology, education and training, finance, STEM (science, technology, engineering, and mathematics), and law, public safety, corrections, and security.

The success of these initiatives underscores the importance of providing students with hands-on realworld experiences that align with their academic pursuits and career interests. The practical exposure gained through these apprenticeships and internships not only enhances their understanding of their chosen fields but also equips them with the skills and insights that will be instrumental in their future endeavors.

#### **MPS Kindergarten Enrollment**

MPS hosted its annual Kindergarten Enrollment Fair at South Division High School on February 3, where families learned about individual schools, met school administrators, and made their school selections.

This year's kindergarten enrollment fair had a record number of attendees with more than three times the number of participants from last year. For families that were unable to visit the fair, there is still time to enroll. Families have until March 4 to go online and apply for the school(s) of their choice.

#### **Head Start**

Preschool is available through the federal Head Start program for families that meet income limits. Head Start prepares children for school and teaches important early skills.

#### (Item 2) Update on and Possible Action on the Implementation of School Resource Officers (SROs) as a Result of ACT 12

#### Background

On June 20, 2023, the State of Wisconsin passed Act 12 which reads, "Beginning January 1, 2024, the school board of the 1st class city school district that is located in the 1st class city shall ensure that not fewer than 25 school resource officers are present at schools within the school district during normal school hours and that school resource officers are available during before-school and after-school care, extracurricular activities, and sporting events as needed."

In response, Milwaukee Public Schools has been in discussion with stakeholders, including student groups, the Milwaukee Teachers' Education Association (MTEA), the Administrators and Supervisors Council (ASC), district staff, community members, and the Milwaukee Police Department (MPD). The goal has been to develop a plan, in partnership with MPD, that redefines the previous role of the school resource officer in MPS.

In addition to working with local stakeholders, MPS conducted site visits at public schools in Washington, DC; Atlanta, GA; Fulton County, GA; and Bibb County, GA. During these visits, district representatives observed school resource officer programs that implement a variety of practices focused on improving relationships between schools, law enforcement, youth, and the greater community.

To date, no financial agreement has been reached between the parties responsible for implementing Act 12. The Administration will update on its progress toward the implementation of Act 12.

## (Item 7) Request to Waive Administrative Policy 3.09(9)(e) and Enter into a Contract with U.S. Bank National Association and Canon Financial Services, Inc.

#### Background

State Authorization to Issue a Contract with U.S. Bank National Association for Enterprise Banking Services

The Administration is requesting authorization to waive the three-year term limit of Administrative Policy 3.09(9)(e) and enter into a contract with U.S. Bank National Association to perform the banking services of the District.

In accordance with 3.09(7)(e)1a, the District has not directly engaged in a competitive procurement process for these services. Instead, these services will be obtained pursuant to Wisconsin State Contract 505ENT-M21-ENTBANKING-01, the result of a competitive selection process by the State of Wisconsin.

Given the processes and procedures inherent in a banking relationship, we are requesting a waiver of the three-year term limit. The contract will have a term of March 1, 2024, through June 30, 2027.

The total cost of the contract will not exceed \$20,600 annually. This expenditure will be offset by interest earnings and earning credits on the average daily balances on deposit with the bank. #### (Item 12) Report with Possible Action on MPS School Nutrition Program

Your Committee reports having received the foregoing report. Although this item was noticed for possible action, no action is required.

#### Background

School Nutrition Services continues serving MPS students with healthful, nutritious meals. The commitment and focus to improve the quality of meals served to our students remain unchanged during the 2023-24 school year. Approximately 5.5 million meals have been served during the months of August to December of the current school year.

School Nutrition Services proudly participates in the USDA's Fresh Fruit and Vegetable Program (FFVP). During the 2023–24 school year, 74 MPS schools were awarded this grant, totaling \$1,865,432.

School Nutrition Services has added new menu items to address the needs of our diverse student population. More entrée choices are being offered to all students including a hot vegetarian option daily. The number of pre-packed food items have been reduced and offering students more choices by implementing "offer vs. serve" serving model.

Currently, 42 schools have been transitioned from a pre-pack to a production model kitchen, and 15 more schools are in consideration for switching to production kitchen model.

School Nutrition Services has contracted with a vendor for equipment replacement in MPS kitchens. The equipment replacement work of approximately 350 pieces of equipment has started and expected to be completed by September 2024 or sooner.

#### Menu Enhancements and Feedback

Department of Nutrition Services is collaboratively working with student groups like YES Group and Milwaukee Community Schools Partnership to continuously improve the food quality. More food choices, including a hot vegetarian entrée option, are offered daily at both elementary and high schools during the 2023-24 school year.

Only hot food items are being pre-packed and cold food items are being directly delivered to sites, allowing students to choose what they want to eat

# (Item 2) Update with Possible Action on the District's Policy Review Process

Your Committee reports having received the foregoing report. Although this item was noticed for possible action, no action is required.

#### Background

At its meeting of August 31, 2023, the Board directed the Office of Board Governance, with the Administration and the Office of Accountability and Efficiency, to bring to the Board a comprehensive plan for policy review.

Since that time, the three offices have met to determine which policies are up-to-date and which are in need of review.

MPS has 335 policies, procedures, and rules that make up its policy manual. It should also be noted that some policies don't have a procedure and, instead, have a separate handbook, manual, or guidebook, which will need to be considered in the review process, to ensure consistency.

# Considerations

The pace at which we are able to complete this work will depend on the following of factors:

- Staffing The involvement of in-house experts from all Offices will be key. Some work areas are short-staffed.
- Legal review Many policies will need to be reviewed by the Office of the City Attorney and we cannot control their workflow.
- Meeting frequency– Per the Board's Rules, all policy changes are required to go through the Committee on Legislation, Rules and Policies, which currently meets at the call of the Chair. The pace of the work will depend on the frequency with which the Committee meets.

To mitigate these factors, we will proceed by:

- Exploring a possible partnership with a provider for assistance (Wisconsin Association of School Boards, NEOLA, Council of Great City Schools, etc.)
- Balancing the review work across all offices so as not to overburden any one team.
- Balancing policies that need extensive review with those that do not.
- Bringing an item in the March cycle for consideration of the Board's committee structure and meeting frequency

# **Review Criteria**

To ensure a thorough examination of policies and procedures, the review will include, but not be limited to:

- Ensuring alignment to current federal, state, and/or local laws and requirements of oversight agencies.
- Ensuring alignment with the Strategic Plan.
- Ensuring alignment to best practices within the corresponding subject matter area.
- Consistency with other rules, policies, and procedures or District guidelines/handbooks as well as elimination of any redundancies.

Confirming whether the policy still meets the current needs or mission/focus of the District or that the policy is no longer necessary and may be rescinded.

Reviewing the extent to which a non-expert would understand the directives or expectations within the policy and ensuring that word choices are up to date.

- Building a monitoring and evaluation function into each policy
- Ensuring that each policy describes who is responsible for its administration.
- Determining if a corresponding procedure needs to be updated or created.

# **Project Management**

The Board is the policy-making body of the district. As the Board's business office, the Office of Board Governance will track the progress of this work and will monitor the five-year review process moving forward.

# **Future Considerations**

- The Board has expressed a desire to make policies more accessible. As we proceed with this work we will:
- Explore the possibility of having policies available in other languages.
- Research web-based platforms that allow the policy manual to be searchable.

#### Background

Milwaukee Public Schools established the District Advisory Council (DAC) to ensure that parents a have an opportunity to share their ideas about the needs of children, assist in the planning and operation of Title I programs and participate in evaluating the success of Title I efforts.

Today, the DAC has grown into a diverse group of families committed to sharing their thoughts on events happening in the district. Each month the District Advisory Council meets to discuss current topics that impact students, schools and the district. Departments throughout MPS utilize the DAC as a means to share information, provide updates and solicit feedback. The District Advisory Council is an important way for MPS families to serve as equal partners with their school community, help improve district and school culture, and strengthen communication and collaboration between families and the district.

#### COMMITTEE ON STUDENT ACHIEVEMENT AND SCHOOL INNOVATION

Director Siemsen presented the following report for the Committee on Student Achievement and School Innovation:

TO THE BOARD OF SCHOOL DIRECTORS:

Your Committee on Student Achievement and School Innovation presents the following report:

#### (Item 1) Action on a Request to Approve the Contracts for At-Risk Seats with Assata, Grandview, NOVA, and Shalom

#### Background

Since 1986, in accordance with Wisconsin Statutes, Sec. 118.153, MPS has been offering alternative school options to students considered at-risk of not graduating high school.

Administration has determined that there is a continued educational programming need for schools that provide services for students that are at risk of not graduating that may not be addressed within a traditional school setting. It is necessary to contract with non-traditional schools and community-based agencies to ensure that the district offers a continuum of services that meets the changing needs of the families and students in the district.

In November and December 2023, the Partnership Review Team (Team) conducted a full-day review for each of the schools. Each review included a presentation by school representatives, classroom visits, and parent, staff, and student focus groups. The Team was provided the opportunity to discuss the findings, to consider additional input from schools, and to provide feedback.

Based on a thorough review of the school application, data, presentation, and site visit, the Team has recommended a three-year renewal of the partnership school contracts with the following programs:

Assata High School, located at 3517 W. Courtland Avenue, established in 1992. The proposed contract is to serve up to a maximum of 120 FTE seats in grades 9 through 12. Assata's educational component is designed to integrate historic contributions and experiences of African-Americans into the daily curriculum as a means to expand both subject and content knowledge needed to overcome credit deficiencies.

Grandview High School, located at 2745 S. 13th St., established in 1988. The proposed contract is to serve up to a maximum of 240 FTE seats in grades 9 through 12. Grandview's mission is to help young adults become academically, emotionally, and socially prepared for productive participation in the 21st Century.

NOVA High School, located at 2320 W. Burleigh St., established in 1993. The proposed contract is to serve up to a maximum of 110 FTE seats in grades 9 through 12. NOVA's mission is to graduate proficient, confident, and respectful young scholars with the educational and social skills necessary to compete in our ever-changing world.

Shalom High School, located at 1749 N. 16th St., established in 1986. The proposed contract is to serve up to a maximum of 100 FTE seats in grades 9 through 12. Shalom's mission is to partner with students to re-envision their obstacles as stepping stones toward their future.

Representatives from the partnership schools, the Office of the City Attorney, and Administration collaborated to update the contract for students at-risk of not graduating from high school. The representatives agree with the contract modifications for the Board's approval as outlined in the attachments to this item.

The draft contact is attached to the minutes of your Committee's meeting.

# (Item 2) Action on a Request to Approve the Contracts for Behavioral Reassignment Seats with Banner Prep, Southeastern Education Center, and Lad Lake Synergy for the 2024-2025 School Year

#### Background

Milwaukee Public Schools (MPS) provides a continuum of services, including placements for students who have significant emotional, behavioral, and social needs. The behavioral reassignment (BR) schools were created to serve students who have been expelled with services or reassigned through a Central Office hearing process and have received a placement in a BR school for a specified period of time.

In March 2023, the Milwaukee Board of School Directors approved one-year contracts for educational services with the following BR schools:

Banner Prep is located at 3517A W. Courtland Avenue. The current contract specifies that Banner Prep will serve 125 BR seats in grades 9-12. Banner Prep's mission is to provide an alternative small-school setting for students when academic and/or behavioral issues have become major barriers to their success in school.

Southeastern Education Center (Southeastern) is located at 4200 N. Holton Street. The current contract specifies services for 85 BR seats in grades 6 through 8. Southeastern's mission is to provide students with a

safe and secure environment within which they can strengthen their academic skills, develop effective work/school habits, and improve interpersonal relationships.

Lad Lake Synergy (Synergy) is located at 2820 W. Grant Street. The current contract specifies services for 110 BR seats in grades 6 through 12. Synergy's mission is to guide growth of youth and families so they can reach their fullest potential.

MPS continues to have a need to partner with community-based agencies to serve students that have been reassigned for a designated period of time due to violations of the MPS code of conduct.

In January 2024, a team met to review the data for each of the schools. Each review was conducted at the school location and included a review of data and the implementation of the school's identified goals with school representatives, classroom visits and student focus groups. The team was provided the opportunity to discuss the findings, to consider additional input from schools, and to provide feedback.

Based on the review of data, the outcome of the review process, and the district's needs, the Administration recommends one-year contract renewals with Banner Prep, Southeastern, and Synergy for BR seats for the 2024-2025 school year.

The proposed Committee's Recommendation is for Banner Prep to serve 125 BR seats in grades 9 through 12, Southeastern to serve 85 BR seats in grades 6 through 8, and Synergy to serve 110 BR seats in grades 6 through 12.

Representatives from the partnership schools, the Office of the City Attorney, and Administration collaborated to update the contract for BR seats. The representatives agree with the contracts' modifications for the Board's approval, as outlined in the attachments to this item.

The draft contact is attached to the minutes of your Committee's meeting.

# (Item 4) Report with Possible Action on Gifted and Talented Identification and Services

Your Committee reports having received the foregoing report. Although this item was noticed for possible action, no action is required.

#### Background

Wisconsin State Statutes, chapters 121.02(1)(t) and 118.35, require school boards to establish guidelines for identification and to provide access to programs for students who are identified as gifted and talented. In Wisconsin, "gifted and talented pupils" means students enrolled in public schools who give evidence of high-performance capability in intellectual, creative, artistic, leadership, or specific academic areas and who need services or activities not ordinarily provided in a regular school program in order to fully develop such capabilities.

Milwaukee Public Schools begins this process through the identification of students by administering the CogAT, which is a cognitive-reasoning assessment to grade two students. Additionally, schools that are part of the Javits Grants (SEE US!, SURGE, and Expanding Excellence) use the Teacher's Observation of Potential in Students (TOPS) Tool to identify gifted potential in underrepresented students.

This presentation will review this year's CogAT and TOPS nominations results that includes the expanded identification methods. This includes identifying advanced cognitive and intellectual abilities through CogAT and gifted potential using TOPS in the following nine domains: learns easily, shows advanced skills, displays curiosity and creativity, has strong interests, shows advanced reasoning and problem-solving, displays spatial abilities, social perceptiveness, and leadership. Additionally, programming opportunities and services for identified students will be discussed.

#### High Ability/High Potential vs. Gifted

• High ability/high potential students are those above the average-ability student in a given domain who require a Tier 2 response to fully develop their talents. This is determined by local norms.

• Gifted students are pupils significantly above the average-ability students in a given domain who need a Tier 2 or Tier 3 level of differentiation. This is determined by national norms.
