EXHIBIT A

Principal Supervisor Professional Learning Milwaukee Public Schools 2017-2018

Milwaukee Public Schools is interested in building the expertise of principal supervisors and other district leaders so they can support principals in their work to lead the improvement of instruction in their schools. The proposal below follows from the University of Washington Center for Educational Leadership's (CEL's) theory of action that student learning will not improve until the quality of teaching improves, and that the quality of teaching will not improve until leaders understand what constitutes high-quality instruction along with the role they play in improving teacher practice. CEL's professional development and coaching will help build the expertise of principal supervisors and other district leaders to coach and support principals by providing professional learning and consulting and by providing on-site, job-embedded coaching for each Director of School Support (DDS).

Partnership outcomes:

Participants will:

- 1. Build their skills in working one-on-one with principals with the goal of building principal expertise in instructional leadership.
- 2. Develop a shared understanding and common language of effective school culture in Milwaukee and identify strategies for supporting principals in their work to establish and sustain an effective school culture.
- 3. Use data and evidence to support and monitor principal progress toward growth.
- 4. Develop effective principal learning networks/communities.
