<u>Funder</u>	<u>Proposal</u>	<u>Total Awarded</u>	<u>Abstract</u>
Wisconsin DPI	21st Century CLCs (Recreation)	1,185,000	21st Century Community Learning Centers are designed to provide students with academic support, enrichment and youth development opportunities in an after-school setting. Nine sites have been awarded funding including Grantosa, LaFollette, Maple Tree, Siefert, Allen-Field, Cass, Hayes, Lincoln Avenue and Lincoln Middle.
Wisconsin DPI	WI DPI AODA (C&I)	45,000	The grant will support three programs within MPS: the MPS Ropes and Challenges Course, Children's Hospital of Wisconsin e-Learning Curriculum and high school health teacher training. The MPS Ropes and Challenges Course supports over 3,500 students and trains over 500 staff annually. The Ropes and Challenges curriculum focuses on social and emotional learning, which research has demonstrated to have a positive influence on decision-making process for children. Children's Hospital of Wisconsin e-Learning curriculum provides all elementary K-8 schools with the opportunity to use standards based on-line curricula. This includes Act Now!, a highly rated bullying prevention curriculum. The high school health teachers will receive professional development in revisions to standards based health education being promoted by the national health and physical education organization SHAPE America and the Wisconsin DPI.
Wisconsin DPI	WI DPI Fresh Fruit and Vegetables (Nutrition)	148,540	The Fresh Fruit and Vegetable Program will increase consumption of fresh fruits and vegetables in elementary school children. This is a competitive grant that must be applied for annually. The level of funds provided to any one school depends on the school's enrollment and the available funding provided by the USDA. The program will serve approximately 26,000 students at 60 MPS elementary schools. School staff will distribute healthy snacks to the classrooms two days per week.
Greater Milwaukee Found	Transformative Reading Foundations (TRI) Project	300,000	The grant will support the implementation of an early grades literacy intervention, Transformative Reading Foundation, or TRI. Specifically the grant will be used to run TRI at 18 schools including weekly coaching sessions and monthly trainings for 18 internal coaches, and monthly meetings on fidelity of implementation and progress monitoring.
